SECTION 2. IC 8-1-26-9 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2014]: Sec. 9. As used in this chapter, "mechanized equipment" means equipment operated by means of mechanical power, including:

- (1) trenchers;
- (2) bulldozers;
- (3) power shovels;
- (4) augers;
- (5) backhoes;
- (6) scrapers;
- (7) drills;
- (8) cable and pipe plows;
- (9) ~~hydroexcavators~~; **hydraulic excavators**; and
- (10) other equipment that may cause damage to underground facilities.

SECTION 3. IC 8-1-26-16, AS AMENDED BY P.L.62-2009, SECTION 13, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2014]: Sec. 16. (a) Except as provided in section 19 of this

SEA 405 — Concur

chapter, before commencing an excavation or demolition operation described in section 14 of this chapter, each person responsible for the excavation or demolition shall:

- (1) serve notice on the association of the person's intent to excavate or demolish; and
- (2) perform white lining at the site of the excavation or demolition if the person responsible for the excavation or demolition is unable to provide to the association the physical location of the proposed excavation or demolition by one (1) of the following means:
 - (A) A street address.
 - (B) A legal description of the location.
 - (C) A highway location using highway mile markers or cross streets.

The notice required under subdivision (1) must be received at least two (2) full working days but not more than twenty (20) calendar days before the commencement of the work. Upon receiving the notice, the association immediately shall notify each operator that has underground facilities located in the proposed area of excavation or demolition. A person responsible for excavation or demolition may commence work before the elapse of two (2) full working days if all affected operators have notified the person that the location of all the affected operators' facilities have been marked or that the affected operators have no facilities in the location of the proposed excavation or demolition.

(b) A county recorder who receives an inquiry from a person seeking to provide notice of an excavation or a demolition under this section shall refer the person to the association. After receiving a notice under this section, the association shall provide notice of the proposed excavation or demolition to each member operator that has underground facilities located in the proposed area of excavation or demolition.

(c) A person responsible for demolition must give an operator a reasonable amount of time, as mutually determined by the operator, the person responsible for demolition, and the project owner, to remove or protect the operator's facilities before demolition of the structure is commenced.

(d) The notice required by subsection (a) must contain the following information:

- (3) The location of the proposed excavation or demolition.
- (4) Whether or not explosives or blasting are to be used.
- (5) The approximate depth of excavation.
- (6) Whether the person responsible for the proposed excavation or demolition intends to perform white lining at the site of the proposed excavation or demolition.

(e) The person responsible for the excavation or demolition shall submit a separate locate request along with the notice provided under subsection (d)(3) to the association as follows:

- (1) Within an incorporated area, for each one thousand five hundred (1,500) linear feet of proposed excavation or demolition.
- (2) In an unincorporated area, for **at least** each two thousand ~~five~~ **six** hundred ~~(2,500)~~ **forty (2,640)** linear feet of proposed excavation or demolition.

(f) A notice provided under this section by a person responsible for an excavation or demolition expires twenty (20) days after the date the notice is submitted to the association under subsection (a), as determined in the manner specified in section 17(d) of this chapter. If, at the conclusion of the twenty (20) day period described in this subsection, any part of the excavation or demolition is not complete at any part of the site for which the original notice was submitted, the person responsible for the excavation or demolition may not continue or resume the excavation or demolition at any part of the site for which the original notice was submitted until:

- (1) the person responsible for the excavation or demolition submits to the association a new locate request, along with a notice that complies with subsection (d), with respect to that part of the site for which the excavation or demolition is not complete; and**
- (2) each affected operator provides facility locate markings in compliance with section 18 of this chapter for that part of the site for which the new locate request and notice are submitted under subdivision (1).**

~~(f)~~ **(g)** The association shall maintain an adequate record of the notice required by this section for seven (7) years to document compliance with this chapter. A copy of the record shall be furnished to the person giving notice to excavate or demolish upon written request.

~~(g)~~ **(h)** A person that:

- (1) causes damage to a pipeline facility located in an area of excavation or demolition;
- (2) is required to provide notice under this section for the excavation or demolition; and
- (3) fails to provide the notice;

may be subject to a civil penalty in an amount recommended by the advisory committee and approved by the commission, not to exceed ten thousand dollars (\$10,000).

~~(h)~~ **(i)** A person that:

- (1) causes damage to a pipeline facility located in an area of excavation or demolition;
- (2) is required to perform white lining under subsection (a)(2); and
- (3) fails to perform white lining before an operator of a pipeline facility arrives at the site of the proposed excavation or demolition to mark the operator's pipeline facilities;

may be subject to a civil penalty in an amount recommended by the advisory committee and approved by the commission, not to exceed ten thousand dollars (\$10,000).

operation under section 14 of this chapter shall do all of the following:

(1) Plan the excavation or demolition to avoid damage to or minimize interference with underground facilities in and near the construction area.

(2) Maintain a clearance between an underground facility, as marked by the operator, and the cutting edge or point of mechanized equipment. The clearance must be not less than two (2) feet on either side of the outer limits of the physical plant. However, if the clearance is less than two (2) feet, **or if an underground facility is located or contained in or under pavement or another manmade hard surface**, exposure of the underground facility may be accomplished **only as follows**:

(A) Only by the use of:

- (i) hand excavation;
- (ii) air cutting; **or**
- (iii) vacuum excavation; **or**
- (iv) **hydro vacuum excavation.**

(B) Mechanized equipment may not be used within the two (2) feet on either side of the outer limits of the physical plant unless the person responsible for the excavation or demolition does the following:

- (i) Visually identifies the precise location of the underground facilities or visually confirms that no facility is present within the depth of the excavation.
- (ii) Takes reasonable precautions to avoid any substantial weakening of the underground facilities' structural or lateral support.
- (iii) Takes reasonable precautions to avoid penetration or destruction of the underground facilities, including their protective coatings.
- (iv) Requires an individual other than the equipment operator to visually monitor the excavation activity.

(C) Mechanized equipment may be used for the initial penetration and removal of pavement or other manmade hard surfaces if an underground facility is located or contained in or under pavement or another manmade hard surface, or if there is pavement or another manmade hard surface extending up to two (2) feet from either side of the outer limits of the physical plant, subject to the following:

- (i) The person responsible for the excavation or demolition must plan the excavation to avoid damage to or minimize interference with the underground facilities,

as required under subdivision (1).

(ii) The person responsible for the excavation or demolition must take into account the known limits of control of the mechanized equipment's cutting edge or point.

(iii) The mechanized equipment may be used only to the depth necessary to remove the pavement or other manmade hard surface.

(3) Notify the association if:

(A) there is evidence of an unmarked pipeline facility in the area of the excavation or demolition; or

(B) the markings indicating the location of an underground facility have become illegible.

(b) A person who:

(1) violates subsection (a); and

(2) causes damage to a pipeline facility in the area of the excavation or demolition;

may be subject to a civil penalty in an amount recommended by the advisory committee and approved by the commission, not to exceed ten thousand dollars (\$10,000).

SECTION 7. [EFFECTIVE JULY 1, 2014] (a) The definitions in IC 8-1-26 apply throughout this SECTION.

(b) As used in this SECTION, "legislative council" means the legislative council created by IC 2-5-1.1-1.

(c) The general assembly urges the legislative council to assign to an interim or a statutory study committee during the 2014 legislative interim the topic of the technology (both technology that is currently available and technology that is under development) used to determine the elevation or depth, or both, of underground facilities that are subject to IC 8-1-26, including an examination of the following:

(1) The feasibility, benefits, and costs of requiring facility operators to provide elevation or depth information for their existing facilities or for facilities that are installed, repaired, or replaced.

(2) The appropriate tolerance zones for interstate pipelines regulated under 15 U.S.C. 717 et seq. or 49 U.S.C. 1 et seq. to ensure public safety and the integrity of the facilities.

The legislative council is further urged to include in this study assignment the topic of underground facilities that are subject to IC 8-1-26, generally.

(d) If an interim or a statutory study committee is assigned the

topic described in subsection (c), the committee shall, not later than November 1, 2014, issue to the legislative council and to the governor a final report containing the committee's findings and recommendations, if any, on the topic described in subsection (c), including any recommended legislation for introduction in the general assembly. A report to the legislative council under this subsection must be in an electronic format under IC 5-14-6.

(e) This SECTION expires January 1, 2015.
